**Note:** The listing of modules that appear under Admin Grading may appear differently at your site depending upon the options your site is utilizing and have assigned.

# **Getting Started**

When the module opens:

1. Click on a location, by default the module will default to the location that your username is set to.

If you want to view students from another location select that location from the drop down menu

2. Click on a Student to begin viewing their data

### **Dashboard View**

### **Overview:**

Once a student is selected the top portion "Dashboard" of the module will display the below Student Information: \* Student Photo – if available in ClassMate

\* CTE MP Average – this is calculated using the following formula:

If the MP=1 then the average = MP 1 PGR; MP2 to MP 4 does a mere average for all included periods (tally the PGR for all included periods and then divide by the # of periods).

It does not reference any class formula nor does it include the final grade.

- \* Attendance YTD and Current MP totals for Excused / Unexcused / Unexcused Tardy categories
- \* Grades Knowledge / Skill / Work Ethic / PDP (if used) / CTE Grade to Date

\* CTE Course Student is Currently Enrolled in and Class Teacher
