# Resolved Issues

## Defect Corrections and Minor Enhancements

The following reported issues are corrected in this release.

Release: 02/01/2021

Jira Number	Summary	Notes
CMW-1084	<b>Progress Report &gt; Grade Dropdown</b> Ability to add Grade Ranges	Created option to choose to display Progress Report Grade Ranges to assign to student exclusively in Teacher Web. Set up Grade Ranges in <b>Master Codes Maintenance</b> using Prgrss Grade Range 11001-11099 Turn function on in <b>ClassMate Custom Control &gt; Misc tab &gt; Progress Report Grade Ranges Off/On</b>
CMW-1096	<b>Removing Web Pages/Tabs</b> Windows > User Module Management	Working as designed. When removing view(s) from user using User Module Management this is NOT viewable when ghosting the user, only when signing in as actual user.
CMW-1097	<b>Attendance</b> Multi page > Filter	Adjusted filter code so if updating student on subsequent page user will remain on selected page and will not revert back to P1
CMW-1109	<b>Grading &gt; Skill</b> Copy to all error	Modified trigger to disregard null/blank field to eliminate display of 'object Object' error when using copy to all function.
CMW-1112	<b>Attendance</b> Student list refresh	Updated display issue to display 'no students' if selected class has no active students.
CMW-1113	<b>Report Card Comments</b> Defaulting to MP4	Modified procedure to default to current MP.
CMW-1114	<b>Grading &gt; Knowledge</b> Status filter	Adjusted filter code, now Status filter only displays students matching selected Status. If student has inactive schedule they will only display when All or Inactive selected for any marking period.
CMW-1115	<b>Grading &gt; Knowledge &amp; Work Ethics</b> Students Duplicated	Corrected issue where students were displaying twice in class when they had multiple schedules w/in same class but one with end date. Students will now display only once if they have an active schedule.
