○ **CS-2032 – Student Services Base Data (INTVBD_M) > Student Color Codes**

- Modules that currently display color coded student names will now include a *Color Legend* above student name tree to identify coloring applied to Student Groups. If you do not want a Group to display, select the Group from list and click **Clear Color** to exclude.

- When in modules that display the Color Legend, the coloring will be consistent regardless of module.
- The Color Legend can be used to Filter the student list to display only selected Group of students by clicking on Group you wish to display > Click ALL to return to displaying ALL students
- When hovering over student name with mouse > all group assignments will display for easy view.
- If multiple Groups assigned, color displays in hierarchy order as listed in Special Services Base Data module below:
 1. Withdrawn
 2. IEP on file
 3. 504
 4. Disabled
 5. Disadvantaged
 6. ELL

The screenshot displays the 'QA Demo' module. At the top left, there are filters for 'Alpha' and 'ID'. Below these is a 'Color Legend' with the following categories: Withdrawn (red), IEP on file (blue), 504 (orange), Disabled (purple), Disadvantaged (green), ELL (yellow), and ALL (grey). The main area shows a list of students with their names and IDs color-coded according to the legend. A red box highlights a student named 'Ab' with ID '00012', whose name is colored grey, indicating they are in the 'ALL' group. A tooltip for this student shows 'M - ELL, Disadvantaged, Disabled'. On the right side, there is a 'Student ID ->' and 'Name ->' field. Below this is a '504 Plan:' section with checkboxes for 'Behavior Support Plan On File' and 'IEP On File'. There are also fields for 'Open Word:', 'IEP Received Date:', and 'IEP Meeting Date:'. A 'View All' button is present. A 'Special Population' section is also visible. Two red callout boxes provide instructions: one points to the 'ALL' button in the legend, stating 'Click on any Group in Legend to Filter student display in tree. Select ALL to return ALL students to tree list.' The other points to the student's name in the list, stating 'When hovering over student name, ALL assigned Groups will display, regardless of color hierarchy.'
